

Step by Step Guide to Claiming Item 903 with Zedmed

Using the 'Properties' screen and the 'Notes' field:

Additional information required for an invoice can be entered through the 'Properties' screen. A service may be rejected by Medicare if an indication flag is missing. *Please see your Practice Manager for further information on how this may apply to your practice.

Hospital/Site:

You may be required to use the indication flag if a doctor sees a patient at a location other from his rooms. Eg: Hospitals, home visits and the number of patients seen.

Not Normal After Care:

Billing the same item number more than once within 7 days. Use this option to indicate to Medicare that the visits are not related to each other.

Multiple Procedures:

You may be required to use this indication flag when billing a duplicate surgical item within the same invoice, an explanatory note must also be entered against each item (see example below):

Date	Item#	Description	Fee	Tax	Unit Value	Qty	Amount	Notes	MUF Activated	Estim. Refund	Gap
12/06/2019	30071	Diagnostic biopsy of skin or mu	P1	FRE	55.50	1	55.50	biopsy of mole 2		41.05	14.45
12/06/2019	30071	Diagnostic biopsy of skin or mu	P1	FRE	55.50	1	55.50	biopsy of mole 1		41.05	14.45
